# Galaxy Acuario

*Elegance and precision to the last detail*

Dawn. Light grows between the tree and tears, And the root hairs and the root cap and the scars

And the crown and the twig and the hummed buds, Are removing their dust  
It is the time of day when I review my dreams, And birds tell me the truth before the clock awakes me

My hinder lover-love extend his arms as branches, Arriving to my soul. Oh! The stems and limbs and trunk  
Sweet silent beauty, It is something reborn... It is something inside my blood!

My day starts with you in so many ways away around the world,  
Magic beliefs or rivers crossing the unknown  
Because you are here as a weather time dragon, As a fire-flame burning your sorrow in my chest!  
As a cloud raining over your hands, As the star glowing our feelings

Over this snow-covered dawn...!

# Galaxy M

*Pure lines for a surprising home*

*Shrouded in golden leaves, we wait. The world doesn't end at sunset  
and only dreams limit themselves to things.*

*Through a labyrinth of blank hours time leads us on  
as autumn falls over our house, our patio. Shrouded in a relentless fog  
we wait, we wait: nostalgia means to live without remembering  
the word we are made of.*

*If you are who I look for, come in the night of lost reflections,  
if you are the beloved body, come in between trees, in between songs.*

*Here awaits you a time dispossessed of fables,  
a body punished by life and the roads' brambles. If you are she who comes,  
leave me a sign in between trees: a white veil, a trace in the dust  
will suffice in my wretchedness.*

*Come now that death awaits as marvellous forest awaits death;  
if you are who I look for, come under the sky's protection.*

## deeply impressive

We are a dissatisfied groan, A sound in the silence of space, A disordered light, An old prophetic thought, We are an unending laugh, Contemping a flood of sadness, The color of beach that is going far, And is getting lost between the traces, We are the cloud it's beyond beliefs, That goes with the wind of doubts, That goes with the fury of time  
 We are like a dusty-flesh-sand, And we go slowly returning, To the hide root of foam, That dissapear between the light of dreams.

We don't need to talk, Our hands express the silence around the river, Our eyes rest on the water  
 Flower's fingers are flavouring the trees, The path

of the border sings the distance, And there is a bird learning to sing, As a baby dreams, full of doubts, Is the silent embroidery by the evergreen?, What makes me tink about equivocal?, The chaos is magic, The blade of leaf reflects existence, And you are here, Touching my soul, What else do you want to know?, The clay is in the bottom of the river  
 Just reach out...

Life is a game of love, And hate, and more, Life is a place, With ghosts and fairys, Life is a deal, That we have, With the Devil and God, Life is a play, That we never forget, And more and more, And more... Life is the less, When you don't live.
