# The Picture Everyone

Under a guiding hand, an elephant will pick up a peanut with dexterity, or move a ton of lead. Gasoline also needs a guiding hand to develop all your motor's power. That is why 95 leading oil companies now add Ethyl fluid to good gasoline to form Ethyl Gasoline. The fluid governs combustion, preventing power-waste, "knock" and overheating. It is so effective that 1 pump in 5 now bears the Ethyl emblem. Ethyl Gasoline Corporation, New York.

**FOLLOW MY STARS OF YOUTH TO A**  
\* \* \* Clearer, softer skin

1922  
4010  
Oct 3

Frances Ingram herself tells how to keep the skin lovely at its 6 vital places

"You are just as young and attractive, as you are old, as your skin looks." I said a charming woman who recently came to consult me. "Keep your skin immaculately clean... Keep it powdered at the wrists... And smile gracefully lovely." Then I explained to her my method with Milkweed Cream.

To cleanse the skin, spread my Milkweed Cream generously over your face and neck. Let it remain for several minutes, to allow the delicate oils to penetrate deeply into the pores, and then remove every vestige of it with soft linen.

"Now" apply a fresh film of the Milkweed Cream. With outward and upward strokes pat it into the skin at the six points named in my monograph.

There are special young ingredients in this Milkweed Cream. These penetrate the cleaned pores and defend the skin against blemishes and aging lines and leave it clear, soft and lovely.

This charming woman came back to me one day six weeks ago. Her skin looked wonderfully clear and soft and fresh! She looked at least five years younger—and said the best!

I have recommended my Milkweed Cream and my method to so many women, and I have seen their skin grow fresh, clear, young. Won't you follow my six stars to a clearer, softer, younger skin?

If you have any special questions to ask about skin care, write for a copy of my booklet, "Why Only A Healthy Skin Can Stay Young." Or read it on my radio hour. Through "The Looking Glass With Frances Ingram," Tuesdays, 10:15 A. M., E. S. T., over WJZ and Associated Stations.

**THE FOREHEAD**—To guard against lines and wrinkles here, apply Milkweed Cream, leaving with fingertips, upward from the center of your brow.

**THE EYES**—If you would avoid aging near the eyes, smooth Ingram's cream on the eyes, smudge with a brush, touch upward, beneath eye and nose orbits.

**THE MOUTH**—Smoothing here are easily defaced by plowing the fingertips with my cream and lifting them upward over the mouth and then upward toward the ears, leaving at the middle of the chin.

**THE WRINKLES**—To have straighter and less lined lips and firmly smooth cheeks, wash Milkweed Cream and massage with palm of hand in many motions.

**INGRAM'S Milkweed Cream**

Frances Ingram, Dept. B-112  
100 Washington St., N. Y. C.

Please read on this too, booklet, "Why Only A Healthy Skin Can Stay Young," which will be available, should you so care for the skin, pat to speed the six vital signs of youth.

**The mouth of youth  
is the  
mouth of health**

**HOW CAN YOU KEEP IT**

STRANGE to say, the moustache grows do  
not show beside the age of the mouth.  
When the gums are firm and healthy,  
when the teeth are sound and clean—the  
mouth can smile at passing holidays.  
But it requires care to keep the average  
mouth young. You cannot wait too soon  
to use Forhan's as your dentifrice—for it  
is an important need not covered by  
an ordinary toothpaste.

Forhan's cleans teeth, of course. You  
can feel no finer dentifrice. Gently and  
safely, it keeps them gleaming with their  
natural beauty, because its cleansing in-  
gredients were carefully chosen by a che-  
mist, R. J. Forhan, D. D. S.

But in addition, when you use Forhan's,  
you can give your gums the scientific care  
they need.

Some years ago, Dr. Forhan developed  
a preparation for his own use in the treat-  
ment of pyorrhea. It relieved tenderness,  
helped to remove soft growths in healthy  
gums. Dentists found its benefits so  
specific that the question was asked: "Why  
not make it possible for the patient to  
supplement other treatment by daily care  
in the home?"

To meet this need, Dr. Forhan perfected  
his dentifrice. Its action is recognized  
dressing agent of the highest purity, it  
contains the advantages of the treatment  
developed in his dental practice.

Used as recommended, with massage  
at the time of brushing, this special den-  
tifrice tones up the gums, stimulates cir-  
culation, and helps to keep them gleaming  
with sound good health.
