Design by Massana - Tremoleda

Chairs, tables and stools

ENG The Gràcia family is made up of chairs, tables and stools in their different versions. The collection is produced using top quality plywood and noble woods, its finishes and solid materials making it particularly hardwearing, long-lasting and suitable for intensive use.

Sillas, mesas y taburetes

ESP La familia Gràcia está formada por sillas, mesas y taburetes en diferentes versiones. Es una colección fabricada con contrachapado y maderas nobles de primera calidad. Los acabados y solidez del material hacen que la colección sea especialmente resistente, perdurable y adecuada para un uso intenso.

A wide range of select fabrics means the chairs can be upholstered, adding comfort and colour to the collection.

ENG All the details have been especially designed: felt bottoms for the feet to minimise noise, a curved back for additional comfort and a polyurethane foam cushion that's easy to clean and ideal for public areas. A wide range of select fabrics means the chairs can be upholstered, adding comfort and colour to the collection.

ESP Todos los detalles han sido especialmente pensados: tacos de fieltro en las patas para amortiguar el ruido, una curva en el respaldo que aporta un gran confort o un cojín de espuma de poliuretano ideal para sitios de uso público ya que es fácil de limpiar. Una amplia gama de telas seleccionadas permiten tapizar las sillas para añadir confort y color a la colección.

Rambla

ENG The Rambla chair takes its conceptual inspiration from the seats used in one of the most emblematic streets in the city of Barcelona: The Rambla. A street that runs from the very heart of the city to the waters of the port. A road that used to have seats you could hire for a while, to have a rest or a chat, very often turning into an improvised agora.

ESP La silla Rambla se inspira conceptualmente en las sillas que albergaba antiguamente uno de los paseos más emblemáticos de la ciudad de Barcelona: la Rambla. Un paseo que discurre desde el centro neurálgico de la ciudad hasta las aguas del puerto; una calle en la que había sillas de alquiler, donde sentarse para descansar o conversar, y que a menudo se convertía en ágora improvisada.

Classic Collection

Josep Torres Clavé

Barcelona 1906 - Els Omellons 1939

ENG Architect, urban developer, designer and pedagogue, he was a founding member of GATPAC (Group of Spanish Artists and Technicians for the Progress of Contemporary Architecture) and a leading introducer of rationalist architecture in our country.

Torres Clavé started his career in architecture together with Josep Lluís Sert and Antoni Bonet Castellana. In fact, with Josep Lluís Sert and Joan Baptista Subirana he constructed some of the most important buildings in Catalan rationalism, such as the Ciutat de Repós i Vacances in Castelldefels (1932) and the Dispensari General Antituberculós in Barcelona (1936).

He ran the magazine AC (A. C. Documents of Contemporary Activity), helping to introduce artists such as Le Corbusier, Walter Gropius, Mies van der Rohe, Erich Mendelsohn, Van Doesburg, Neutra, Lubetkin, Joan Miró and Pablo Picasso; working to spread architecture, design and contemporary art in a society wanting to modernise, in competition with a supremely contemporary Europe. He left behind a brief but important legacy in his short career as a designer.

He designed chairs, tables and lights, among other items of furniture, including the Torres Clavé armchair, re-released by Mobles 114.

Josep Torres Clavé died aged 33 during the Spanish Civil War.

ESP Arquitecto, urbanista diseñador y pedagogo. Miembro fundador del GAT-CPAC (Grupo de Artistas y Técnicos Catalanes para el Progreso de la Arquitectura Contemporánea) e introductor destacado de la arquitectura racionalista en nuestro país.

Inició su trayectoria como arquitecto junto a Josep Lluís Sert y Antoni Bonet Castellana. Precisamente con Sert y Joan Baptista Subirana proyectó algunas de las obras más importantes del racionalismo catalán, como la Ciudad de Reposo y Vacaciones de Castelldefels (1932) o el Dispensario General Antituberculoso en la ciudad de Barcelona (1936).

Dirigió la revista AC (AC. Documentos de Actividad Contemporánea), desde la que introdujo a artistas como Le Corbusier, Walter Gropius, Mies van der Rohe, Erich Mendelsohn, Van Doesburg, Neutra, Lubetkin, Joan Miró o Pablo Picasso; una labor de difusión sobre arquitectura, diseño y arte contemporáneo en una sociedad que buscaba modernizarse y que competía con una contemporaneidad europea de primer orden. En su corta carrera como diseñador dejó una impronta, sin embargo, contundente. Diseñó sillas, mesas y lámparas, entre otras piezas de mobiliario, entre las que destaca la butaca Torres Clavé, reeditada por Mobles 114.

Josep Torres Clavé murió a los 33 años de edad, durante la Guerra Civil española.

Self-portrait (Josep Torres Clavé)

Torres Clavé armchair was exposed at the International Exhibition in Paris in 1937 along with other world-renowned artworks such as Picasso's Guernica.

Pavilion of the Spanish Republic, International Exhibition in Paris 1937. Photo by François Kollar

ENG The architect Josep Torres Clavé designed this armchair in 1934 to furnish the Pavilion of the Spanish Republic at the 1937 International Exhibition in Paris, next to works such as Guernica by Pablo Picasso others by Alexander Calder and Joan Miró.

The Torres Clavé armchair takes its inspiration from the traditional chairs of Ibiza.

With an oak frame and its seat and back upholstered in traditionally made string, its traditional appearance adds a touch of elegance to spaces in hotels, receptions and waiting rooms, as well as reading areas in libraries and other special areas.

A noble, minimalist Mediterranean wooden armchair that adds personality to the home.

It has formed part of the Permanent Collection at Barcelona's Design Museum since 1994. It's traditionally made and is one of the iconic pieces in the classics of international design.

ESP En 1934, el arquitecto Josep Torres Clavé diseñó este sillón de madera como parte del mobiliario que debía acoger el Pabellón de la República Española en la Exposición Internacional de París de 1937, junto al Guernica de Pablo Picasso y otras obras de Alexander Calder o Joan Miró.

La butaca Torres Clavé se inspira en la tradicional sillería ibicenca. De estructura de madera de roble y asiento y respaldo tejidos con cuerda de manufactura artesanal, por su carácter formal es especialmente adecuada para ámbitos de hotelería, recepción o salas de estar y zonas de lectura en bibliotecas y otros espacios singulares. Es, además, una butaca particularmente cálida y natural para la decoración de interiores del hogar.

Forma parte de la Colección permanente del Museu del Disseny de Barcelona desde 1994. De producción artesanal, es una pieza emblemática e icónica que Mobles 114 fabrica desde que la reeditó en 1987.

Design by G.Rodríguez Arias

Classic Collection

Germán Rodríguez Arias

Barcelona 1902 - 1987

muebles
INTERMOBEL

ENG Catalan architect and designer, together with Josep Lluís Sert, Josep Torres Clavé, Sixte Illescas and Ricardo de Churruga, among others, he introduced architectural rationalism to Catalonia and was a founding member of GATCPAC. The buildings he designed in the city of Barcelona form part of the heritage of universal rationalist architecture.

During his exile in Mexico and subsequently in Chile, he focused his work on designing interiors and furniture; as a result of his very close relationship with the Chilean poet Pablo Neruda, Rodríguez Arias was the architect behind the various homes Neruda had built in Chile during his lifetime. Together with Cristián Aguadé and Claudi Tarragó he founded Muebles Sur, which would become one of the country's leading furniture makers. In 1957 he returned to his homeland and settled on Ibiza, once again getting together with his companions Sert, Prats and Illescas. He worked as a municipal architect on the island, combining this with projects as a private architect and principally designing hotels and homes, including his own house at Portinatx.

Germán Rodríguez Arias and his wife

ESP Arquitecto y diseñador catalán, introductor, con Josep Lluís Sert, Josep Torres Clavé, Sixt Illescas y Ricardo de Churruga, entre otros, del racionalismo arquitectónico en Cataluña y socio fundador del GATCPAC. Los edificios que proyectó en la ciudad de Barcelona forman parte del patrimonio de la arquitectura racionalista universal.

En su exilio en México y posteriormente en Chile centró su actividad en el diseño de interiores y de mobiliario.

En Chile forjó una estrecha relación con el poeta Pablo Neruda, que le llevó a proyectar sus sucesivas viviendas a lo largo de su vida. También en Chile, funda, junto con Cristián Aguadé y Claudi Tarragó, la empresa Muebles Sur, que se convertirá en una de las fábricas de muebles más importantes del país.

En 1957 regresa a su país natal y se instala en Ibiza, donde se reencuentra con Sert, Prats e Illescas. En Ibiza compaginará el cargo de arquitecto municipal con la actividad privada, proyectando principalmente hoteles y viviendas, entre las que destaca la suya, en Portinatx.

Rodríguez Arias design, among others, the extension of Isla Negra, Pablo Neruda's house in Chile, and part of the furniture such as the Catalan armchair.

Pablo Neruda's house in Chile. Photo by Díaz Wichmann

GRUPO muebles
INTERMOBEL

ENG During his time in Chile, German Rodríguez Arias met Pablo Neruda and struck up a long-lasting friendship with him. The poet asked him to design some of the houses he had built while he was in Chile. Among others, Rodríguez Arias designed the house at Chascona and the extension of Isla Negra, two of the poet's homes.

This Catalan armchair formed part of the series of furniture placed by the architect and designer in the Isla Negra house. The armchair was made with local wood from Chile and rushes, taking its inspiration from traditional Catalan armchairs.

Mobles 114 has revived the Catalan armchair by Rodríguez Arias made of oak with its seat upholstered in traditionally made natural fibre, respecting as scrupulously as possible the original design by German Rodríguez Arias. A wooden chair with a markedly Mediterranean character that is particularly notable for having six legs, a high back and a slant reinforced by the back legs, giving the piece a contemporary, modern feel.

ESP Durante su etapa chilena, Germán Rodríguez Arias conoció a Pablo Neruda, con quien mantendría una larga amistad. El poeta le encargaría la construcción de las diversas casas que edificó a lo largo de sus estancias en Chile.

Rodríguez Arias proyectó, entre otras, la casa La Chascona y la ampliación de Isla Negra, dos de las viviendas del poeta. La butaca Catalana formó parte del mobiliario que el arquitecto y diseñador proyectó para Isla Negra. La fabricó con madera autóctona de Chile y boga, inspirándose en las butacas tradicionales catalanas.

Mobles 114 ha reeditado la butaca Catalana de Rodríguez Arias con madera de roble y asiento tejido de fibra natural de manufactura artesanal, respetando lo más escrupulosamente posible el diseño original. Una sillón de madera de naturaleza marcadamente mediterránea que destaca por sus seis patas, su alto respaldo y una inclinación reforzada por las patas posteriores, factores que le confieren un carácter actual y moderno.

Design by Miguel Milá

Classic Collection

Miguel Milá

Barcelona, 1931

ENG Miguel Milá, who started his career in the late 1950s, sees himself as a pre-industrial designer. Together with André Ricard, Antoni de Moragas, Oriol Bohigas and Rafael Marquina, among others, he was the co-founder of the ADI FAD association, set up to promote and disseminate industrial design both nationally and internationally.

His work as an interior designer for the studio of Federico Correa and Alfonso Milá stands out, remarkably, for its ability to impart comfort and elegance to the spaces he creates.

His designs are the result of painstaking but seemingly simple work which has led to many of his products being recognised as icons of our country's industrial design. He won the very first National Design Award in 1987, Compasso d'Oro and Gold Medal for Fine Arts 2016.

ESP Miguel Milá, que inició su carrera a finales de los años 50, se considera a sí mismo un diseñador preindustrial. Junto con André Ricard, Antoni de Moragas, Oriol Bohigas o Rafael Marquina, entre otros, fue cofundador de la asociación ADI-FAD, creada para promover y difundir el diseño industrial a nivel nacional e internacional.

Su labor como diseñador de interiores en el despacho de Federico Correa y Alfonso Milá destaca especialmente por la capacidad de transmitir confort y elegancia a los espacios que crea. Sus diseños son el resultado de un trabajo cuidado y aparentemente sencillo por el que muchos de sus productos han sido reconocidos como iconos del diseño industrial de nuestro país.

Fue galardonado con la primera edición del Premio Nacional de Diseño, en 1987, Compasso d'Oro y Medalla de Oro al Mérito en las Bellas Artes 2016.

MMS table was part of the furniture of ‘Casa Pairal’ in Espolla, reformed by the architect José Antonio Coderch.

Casa Pairal, Espolla (1964)

ENG MMS is a light, small, stackable side table. Its shape and variety of potential compositions make it the ideal table for anywhere in the home, either at the bedside, as an auxiliary or coffee table in the living room or in other rooms. An oak table finished in natural varnish, pleasant to the touch, which adds comfort to a home's interior design, blessed with the discretion and elegance typical of the work by Miguel Milá.

This piece of furniture has been re-released to underline the fact that the MMS 1963 table is one of our country's design classics.

ESP MMS es una mesa auxiliar ligera, pequeña y apilable, idónea, por su forma y por sus diversas composiciones posibles, para cualquier lugar de la casa, como mesita de noche, como auxiliar o para el café en el salón o en otros espacios.

Una mesa de madera de roble, barnizada al natural, de tacto agradable, que proporciona confort al interiorismo del hogar, con la discreción y la elegancia que caracterizan la obra de Miguel Milá. Esta reedición quiere evidenciar que la mesa MMS 1963 de Miguel Milá forma parte de los clásicos del diseño de nuestro país.

Jujol 1920

Design by Josep Maria Jujol

Classic Collection

Josep Maria Jujol

Tarragona 1906 - Barcelona 1939

ENG Josep Maria Jujol (1879-1949) was a Catalan Modernista architect, draughtsman, designer and painter. A follower of Antoni Maria Gallissà and Lluís Domènech i Muntaner, he completed his architecture studies in 1906 and was also a professor at the Higher School of Architecture in Barcelona.

He collaborated with Antoni Gaudí, adding his own personality to the work. In fact, the architect Gaudí trusted him to design parts of his projects, giving him total creative freedom. As from 1904 he worked with Gaudí on the design of the main façade of the Casa Batlló, as well as the wrought iron railings and some of the plaster ceilings at the Casa Milà (popularly known as 'La Pedrera'), among other projects.

Jujol's work cannot be categorised. He participated in artistic movements such as Surrealism and Dadaism, as well as using abstract and informalist approaches. Some of Jujol's most notable architectural works are the Teatre Metropol (1908) in Tarragona; the reform of Casa Bofarull (1913 - 1931) in Els Pallaresos, Tarragona; the Torre de la Creu (1913 - 1916) in Sant Joan Despí, Barcelona and the Vistabella Church (1918) in La Secuita, Tarragona.

Of his collaboration with Gaudí, there is notably the Casa Batlló (1904 - 1906) in Barcelona, with its main façade and furniture; the Casa Milà (La Pedrera) (1906 - 1910) in Barcelona, its balcony railings and plaster ceilings; the Park Güell (1900 - 1914) in Barcelona, with the "trencadís" technique bench and ceilings in the hypostyle room as well as Mallorca Cathedral (1909 - 1910) in Palma de Mallorca, with paintings for the Gothic masonry for the choir and facings on the apse walls.

ESP Josep Maria Jujol (1879 - 1949) fue arquitecto, dibujante, diseñador y pintor modernista catalán. Discípulo de Antoni Maria Gallissà y Lluís Domènech i Montaner acaba sus estudios de arquitectura en el año 1906. Fue un catedrático en la Escuela Superior de Arquitectura de Barcelona.

Colaborador de Antoni Gaudí, participó en su obra con personalidad propia. El arquitecto Gaudí le confió la proyección de parte de sus obras con absoluta libertad creativa.

A partir de 1904 colabora con Gaudí en el diseño de la fachada principal de la casa Batlló y en las barandas de forja y algunos de los techos de la Casa Milà (conocida popularmente como 'La Pedrera'), entre otras obras.

La obra de Jujol es inclasificable; Participó en movimientos artísticos como el surrealismo o el dadaísmo y en la utilización de de lenguajes abstractos o informalistas. De las obras arquitectónicas de Jujol destacamos el Teatro Metropol (1908), Tarragona; la reforma de la Casa Bofarull (1913-1931), Els Pallaresos, Tarragona; la Torre de la Creu (1913-1916), Sant Joan Despí, Barcelona o la iglesia de Vistabella (1918), La Secuita, Tarragona.

De la colaboración con Gaudí destacamos la Casa Batlló (1904-1906), Barcelona, la fachada principal y mobiliario; la Casa Milà (La Pedrera) (1906-1910), Barcelona, las barandas de los balcones y los techos; el Park Güell (1900-1904), Barcelona, el banco de "trencadís" y los techos de la sala hipóstila o la Catedral de Mallorca (1909-1910), Palma de Mallorca, las pinturas de la sillería gótica para el coro y el revestimiento de los muros del ábside.

The Jujol table is a reproduction of the one exhibited permantly at the MNAC (National Art Museum of Catalonia).

m o b l e s
INTERMOBEL

ENG The Jujol table was designed between 1920 and 1927 by the architect Josep Maria Jujol. This is a reproduction of the table exhibited at the MNAC (National Art Museum of Catalonia).

It comes from the house where JM Jujol lived, on the Rambla de Catalunya in Barcelona and, given how it was constructed, we can conclude that it's a prototype, a unique model which we have reproduced and now forms part of the Mobles 114 Classics catalogue.

Jujol 1920 is a side table that warrants being admired as a work of art; a practical, versatile table that adds dignity, gravity and elegance to any interior design.

Made from oak, the two oval tops have been placed at different heights, giving the table a unique character and personality. Far removed from the Catalan Modernista style, Jujol went beyond fashion and designed a table that doesn't look out of place in the 21st century.

ESP La mesa Jujol fue diseñada entre los años 1920 y 1927 por el arquitecto Josep Maria Jujol. Es una reedición de la mesa expuesta en el MNAC (Museo Nacional de Arte de Cataluña).

Proviene del domicilio donde vivió Jujol en la Rambla de Cataluña de Barcelona y, por la manera que está construida, podríamos decir que se trata de un prototipo, un ejemplar único que reeditamos y que forma parte del catálogo de Classic de Mobles 114.

Jujol 1920 es una mesa auxiliar que invita a admirarla como una obra de arte. Una mesa práctica y versátil que acompaña la decoración de espacios de interior aportando nobleza, sobriedad y elegancia.

Construida con madera de roble, los dos sobres ovalados dispuesta en dos niveles le otorgan un carácter y personalidad únicos. Lejos del estilo modernista, Jujol traspasa estilos y diseña una mesa que en pleno siglo XXI tiene una vigencia indiscutible.

Design by Miguel Milá

ENG Tombal is an elegant multi-use product; a practical umbrella stand or an ashtray. Designed in 1990 by Miguel Milá and produced in 2017 by Mobles114. It's a good example that good designs resist the ravages of time. Tombal can be an umbrella stand or an ashtray depending on which way up you stand it. It resists the humidity, the vase is easy to empty and thanks to the excellent properties of the ceramic it is very durable and easy to clean.

ESP Tombal es un paraguero o cenicero elegante y práctico. Diseñado en 1990 por Miguel Milá y reeditado el año 2017 por Mobles 114 es un rotundo ejemplo de que el buen diseño resiste a la perfección el paso del tiempo. Tombal puede ser un paraguero o un cenicero por su estructura reversible. Es resistente a la humedad, el recipiente permite vaciar el agua con facilidad y gracias a las excelentes propiedades del gres es muy duradero y fácilmente lavable.

Design by Álvaro Siza

Classic Collection

Álvaro Siza

Matosinhos, 1933

ENG Álvaro Siza was born in Matosinhos, Portugal. An internationally renowned architect, he created his first designs in Portugal where he earned a reputation for their elegant, respectful integration within the architecture and landscape. The Marés swimming pools at Leça de Palmeira and the Da Boa Nova restaurant are a good example of this.

Siza's architecture is guileless, minimal and efficient, conveying a sense of withdrawal or inner contemplation; architecture that has been constructed in many different countries in the world but always preserving this capacity to provoke contemplation.

He's won many different architecture prizes including the Mies Van der Rohe Award in 1988 and the Pritzker Prize of 1992.

ESP Álvaro Siza nació en Matosinhos, Portugal. Arquitecto de reconocido prestigio internacional, proyecta sus primeras obras en su país natal, donde ya destaca por su elegante y respetuosa integración de arquitectura y paisaje. Ejemplo de ellas son las piscinas das Marés en Leça de Palmeira o el restaurante-casa de té Boa Nova.

Siza proyecta una arquitectura sin artificios, mínima y eficiente, que transmite una sensación de recogimiento; una arquitectura que ha construido en muchos países del mundo, conservando siempre la capacidad de provocar esta emoción.

Ha sido distinguido con multitud de premios de arquitectura, entre los que destacan el Mies Van der Rohe en 1988 y el Pritzker en 1992.

A light inspired by the evolution of brass or bronze oil lamps that included a shade to avoid dazzle.

First sketches by Álvaro Siza

212

ENG Fil is a table lamp designed in 1991 by the architect Alvaro Siza Vieira which artlessly reveals the essence of an electric light: a support, the electric wire with the lightbulb and a shade.

A light that forgoes ornaments, inspired by the evolution of brass or bronze oil lamps that included a shade to avoid dazzle.

Made in stainless steel, the Fil lamp by Siza Vieira forms part of the Classics catalogue of Mobles 114 thanks to its contemporary roots and in homage to one of today's great architects.

ESP Fil es una lámpara diseñada en 1991 por el arquitecto Álvaro Siza Vieira que muestra sin artificios lo que constituye la esencia de una lámpara eléctrica: un soporte, el cable eléctrico con la bombilla y una pantalla. Una lámpara que prescinde de ornamentos, inspirada en la evolución de los candiles de latón o de bronce que incorporaban una pantalla para evitar deslumbramientos.

Fabricada en acero inoxidable, la lámpara Fil de Siza Vieira forma parte del catálogo Clásicos de Mobles 114 por su radicalidad contemporánea y en homenaje a uno de los grandes arquitectos actuales.

Design by André Ricard

Classic Collection

André Ricard

Barcelona 1929

ENG A pioneer of Spanish industrial design, André Ricard was Chairman of ADI-FAD, Founding Chairman of ADP and a member of the Faculty of the Art Centre (Switzerland), among other positions.

An internationally renowned author, he has designed containers, utensils, lighting, domestic appliances and items of furniture that have ended up forming part of our everyday lives at home. Among his most well-known designs are the Copenhagen ashtray, released by Mobles 114, and the Olympic torch for the Barcelona 1992 Games.

Taking a logical, analytical approach he “harmoniously integrates the most beautiful form with the demands of the function”, applying a style of design that’s classic because it’s timeless and never becomes outmoded.

André Ricard has been recognised with Spain’s National Design Award, the Sant Jordi Cross from the Catalan government, the Olympic Order of the International Olympic Committee and the Gold Medal for Artistic Merit of the city of Barcelona, and has also been made a Chevalier des Arts et des Lettres and Chevalier de la Légion d’Honneur of France.

ESP Pionero del diseño industrial español, André Ricard ha sido presidente de la asociación ADI-FAD, presidente fundador de la ADP y profesor en el Art Centre Europe (Suiza).

Autor de prestigio internacional, ha diseñado envases, utensilios domésticos, aparatos de iluminación, electrodomésticos y piezas de mobiliario que han sido asimilados como parte del paisaje doméstico cotidiano. Entre sus obras más conocidas destacan el diseño del cenicero Copenhagen, editado por Mobles 114, o la Antorcha Olímpica para los Juegos Olímpicos de Barcelona '92.

Aplicando el método del análisis lógico consigue “la integración armoniosa de la forma más bella y de las exigencias de la función” en un estilo de diseño clásico por lo perdurable y que no deja de ser actual.

André Ricard ha sido reconocido con el Premio Nacional de Diseño, la Creu de Sant Jordi de la Generalitat de Catalunya, la Orden Olímpica del Comité Olímpico Internacional y la Medalla de Oro al Mérito Artístico de la Ciudad de Barcelona. Asimismo, es Chevalier des Arts et des Lettres y Chevalier de la Légion d’Honneur de Francia.

Copenhaguen ashtray is the result of a geometric design that uses the simple repetition of a cylinder.

ENG With sober lines and minimalist design, free from adornments, this set of melamine ashtrays created by André Ricard in 1966 has amply demonstrated the beauty of useful things.

Made in a single block, this ashtray is the result of a geometric design that uses the simple repetition of a cylinder.

A recipient made up of an open cylinder with another, smaller cylinder inside to support or extinguish cigarettes; the shape of the groove in the outer wall matches the rest of the ashtray and is perfectly designed to hold a cigarette.

This is a hardwearing, stackable ashtray that fulfils its function with the utmost effectiveness. This design classic is in line with the goal of Mobles 114 which, for more than 20 years, has remained in the market to preserve our country's heritage in terms of both culture and design. The Copenhagen ashtray won the ADL_FAD Delta Silver Prize 1966.

ESP De líneas sobrias y con un diseño mínimo y exento de ornamentos, este juego de ceniceros de melamina creados por el diseñador industrial André Ricard en 1966 ha demostrado sobradamente la belleza de las cosas útiles.

Fabricado de una sola pieza, este cenicero es el resultado de diseñar con la sencilla repetición de la geometría del cilindro. Un recipiente conformado por un cilindro abierto del que emerge otro cilindro interior más pequeño en el que apoyar o apagar el cigarrillo; la boquilla de la pared exterior, a juego con el resto del cenicero, es idónea para alojar el cigarrillo. Es un cenicero apilable y resistente que cumple su función con la máxima eficacia.

Este clásico del diseño responde a la voluntad de Mobles 114, que desde hace más de dos décadas lo ha mantenido en el mercado a fin de preservar el patrimonio cultural y del diseño de nuestro país. El cenicero Copenhagen fue galardonado con el Delta de Plata ADI-FAD 1966 y Delta de Oro 25 años AdiFad 1985.

Tong 1964

Design by André Ricard

Classic Collection

André Ricard designed these tongs in 1964 for ice cubes back in the day when plastic was a relatively new material.

First model of the ice tong by André Ricard (1964)

ENG These ice tongs, relaunched in 2018, are an updated version of the ones designed by André Ricard in 1964.

Ricard has slightly altered the width of the tongs, as well as using a new type of plastic to improve their performance. The tongs are a classic design created in Barcelona in the 1960s and form part of the Mobles 114 Classic Collection. A devotee of simplicity and functionalism, André Ricard designed these tongs for ice cubes back in the day when plastic was a relatively new material. This gave the designer the chance to rethink an object that had always been produced in the same way. Most tongs were made of steel or wood, with a pivot or spring to ensure they returned to their original position.

Ricard's design makes use of the shape of the tongs themselves as their mechanism. His masterful solution takes advantage of the tong's leverage and the flexibility inherent in plastic. The designer has thought about the hands that are going to hold the product and the product that's going to hold onto the ice cubes. These tongs are the perfect extension.

ESP La pinza para hielo reeditada en 2018 es una versión actualizada de la que diseñó André Ricard en 1964.

Ricard nos propone una ligera modificación en el ancho de la pinza y la utilización de nuevos materiales plásticos que permiten una mejora en el uso. La pinza es un clásico del diseño hecho en Barcelona en los años 60 y forma parte de la Colección de Classic de Mobles 114.

Fiel a la simplicidad y al funcionalismo, André Ricard diseñó una pinza para cubitos de hielo en una época en la que el plástico era un material relativamente nuevo. Para el diseñador fue una oportunidad para plantear de nuevo un producto que había sido fabricado siempre de la misma manera. Las pinzas eran en su mayoría de acero o madera y la función se ejercía por el movimiento a partir de un eje, o del retorno a partir de un efecto muelle.

El diseño de Ricard resuelve la función de la pinza a partir de la propia forma. Aprovecha la combinación de la palanca y la propia flexibilidad del plástico con una solución magistral.

Material	New wool · Nylon	90% · 10%
Weight	415 g/lm · (14.63 oz/lin.yd.)	
Width	138 cm · (54")	
Abrasion resistance	rubs · EN ISO 12947 (Martindale)	100.000
Pilling	Note 4, EN ISO 12945	
Maintenance	Vacuuming and dry cleaning	
Flammability	AS/NZS 1530.3 · BS 5852 Crib 5 with treatment · BS 5852 part 1. EN 1021-1/2 · IMO FTP Code 2010: Part 8 · NF D 60 013 · NFPA 260. Önorm B1/Q1 · UNI 9175 1IM · US Cal. Bull. 117-2013. No use of brominated flame retardants	

Group D Kvadrat Divina Melange

Material	New wool	100%
Weight	820 g/lm.m	
Width	150 cm · (59")	
Abrasion resistance	rubs · EN ISO 12947 (Martindale)	45.000
Pilling	Note 3, EN ISO 12945	
Maintenance	Vacuuming and dry cleaning	
Flammability	AS/NZS 1530.3, BS 5852 Crib 5, BS 5852 ignition source 3, BS 5852 part 1, BS 5867 part 2 type B, EN 1021-1/2, EN 13501, C-s1, d0, glued, NF D 60 013, NFPA 260, SN 198 898 5.3 with treatment *, UNI 9175 1IM, US Cal. Bull. 117-2013, ÖNORM B1/Q1	

Group D Kvadrat Steelcut Trio 3

Material	New wool · Nylon	90% · 10%
Weight	770 g/lm · (27,16 oz/lin.yd.)	
Width	140 cm · (55")	
Abrasion resistance	rubs · EN ISO 12947 (Martindale)	100.000
Pilling	Note 4, EN ISO 12945	
Maintenance	Vacuuming and dry cleaning	
Flammability	AS/NZS 1530.3 · AS/NZS 3837 class 2 · BS 5852 Crib 5 with treatment BS 5852 part 1 · DIN 4102 B2 · EN 1021-1/2 · IMO FTP Code 2010: Part 8 NF D 60 013 · NFPA 260 · Önorm B1/Q1 · SN 198 898 5.3 with treatment UNI 9175 1IM · US Cal. Bull. 117-2013 No use of brominated flameretardants
